luxury aluminium pergolas

Create the ultimate outdoor living space

## Are you ready to create the ultimate outdoor living space?

Remanso Luxury Pergolas create a beautiful outdoor living space in any garden. The all-weather roof design allows you to make the most of the outdoors all year round.

For the ultimate in convenience, the fully automatic roof system provides sky views or shelter at the touch of a button.

Remanso will transform your garden into an oasis of relaxation and a luxury space for entertaining family and friends.

## Why choose a Remanso?

Remanso Luxury Pergolas are constructed from heavy duty powder coated aluminium with a fully automatic opening and closing louvre-style roof.

All models include LED roof lighting as standard. Optional accessories include automatic blinds with remote control, vented side panels and 1.8kW infrared heater.

Available in 4 sizes, all 2.5m high. The perfect choice for a hot tub, outdoor kitchen or a seating area.

## Motorised Roof Louvres

The motorised Remanso Louvres can rotate from their fully closed position through 145° (and be paused at any increment in-between) thus tracking the path of the sun creating your desired level of shading.

## Integrated LED Lighting

Integrated 360° degree LED lighting within the roof profile surrounds the Remanso to create a perfect outdoor setting day or night.

## Aluminium Frame

All Remanso Pergolas are built from heavy duty powder coated aluminium in a stunning Anthracite colour, to create a strong, hard wearing and reliable structure that will last for years to come.

## Integral Rainwater System

The Remanso boasts a innovative rainwater system that deals with heavy rainfall offering protection in all weathers. The drainage is part of a discreet internal system which allows the water to exit through the base of the posts.

## Multi Function Controller

Every Remanso comes with an easy-to use remote control that operates the roof louvres, LED lighting and optional vertical blinds.

## Optional Adjustable Side Blinds

The Remanso has optional blinds that can be integrated within the louvred roof system allowing additional shade, shelter and privacy at the touch of a button.

## Optional Fixed Vented Side Panels

The Remanso vented side panels with static louvres are designed to add privacy and shade. Unlike the roof panel the louvres are fixed in an optimum angled position. A stylish addition to any size of Pergola.

## Optional Wall-mounted Heater

The Remanso wall-mounted heater uses a high efficiency infrared carbon fibre heating element. The 1.8kW element produces totally dry heat, no condensation, no gas, no fumes and no smell.

# Remanso Models

## 3m x 3m

A compact design that offers the perfect solution for enclosing a hot tub.

---

## 3m x 4m

Our most popular model provides the ideal space for dining and entertaining the family.

---

## 3m x 6m

With this larger model you can create a multi-use outdoor space in your garden.

---

## 4m x 5m

Our largest model offers plenty of space for all the family to enjoy the outdoors, whatever the weather.

---

Remanso Pergolas must be installed by an authorised dealer and is not designed for customer self-build. It is essential that the patio area/base is 100% level.

# Optional Accessories

## Automatic Blinds

The Remanso blinds will add privacy and shade to create the perfect garden oasis.

These deluxe automatic blinds are operated by a simple remote control. A single remote can operate up to 6 blinds. Each blind can quickly be set in it's desired position.

The fabric is made from a tough PVC coated all-weather material which is easy to clean. They require minimal maintenance and will withstand the elements for many years of outdoor use.

The fixed cassette adds an element of weatherproofing to the Pergola, allowing you to enjoy your outdoor space with the added protection from the wind and rain due to the side of the screens being locked into the frame.

## Vented Side Panels

These beautiful static panels are a striking addition to any Remanso Pergola. Fixed in between each set of legs, although they don't rotate like the roof louvres, they provide privacy, shade and style to the Remanso Luxury Pergola.

Constructed from toughed aluminium and powder coated to match the rest of the pergola. Each panel contains louvres which are fixed in the optimal position to allow light in while providing subtle shade to your outdoor space.

The Remanso side panels look stunning and will take your Pergola to the next level.

## 1.8kW Outdoor Heater

Perfect for spending time in your garden on those cooler evenings the Remanso outdoor heater will keep you and your guests nice and warm.

The Remanso wall-mounted heater uses a high efficiency infrared carbon fibre heating element. The 1.8kW element produces totally dry heat, no condensation, no gas, no fumes and no smell.

This sleek and unobtrusive heater is made from a strong aluminium casing, powder coated to match the Remanso frame. It can be easily mounted to the pergola frame and includes simple brackets that are also adjustable so you can steer the heat to any direction. It comes with a remote control as standard.

---

Heaters can be attached to any size of Remanso. It is not possible to have a heater and blind/panel on the same side.
